

## North Carolina Camp Davis

---

### ***Facility and Location***

Camp Davis consisted of 46,682 acres southeast of Holly Ridge in Onslow county. It was acquired by the Army between 1941 and 1943. The Army used Camp Davis as a World War II Army Air Forces training camp and school, airfield, convalescent hospital, redistribution center, and anti-aircraft range. Ranges on the site include three anti-aircraft ranges, a rifle/pistol range, and a grenade range. On October 3, 1945, the Army transferred the site to the Navy which then used a small portion of the site for an operation involving non-ordnance related testing missiles. Camp Davis was dismantled in the late 1940s and the land was turned over to the public. The majority of the site is owned by the state of North Carolina as a wildlife and wetland area.

### ***Media Sampled and Findings***

**Drinking Water** — In 2008, two samples (from one well) reported no detection.

### ***Appropriate Actions***

Not Applicable. All samples were below the EPA and DoD Preliminary Remediation Goal of 15 ppb.
